PUBLISHING AGENCY
MINI BOOKS

Mini book VIP Ticket Fast Action Bonus

Mini books are the perfect solution for today's busy readers. Each mini book increases your influence, impact, and income, but in a quarter of the time. The average full length book is around sixty thousand words. This can prove to be cumbersome for the author and the reader. By doing mini books, you create products in less time and see a ROI much faster. Publish 4x faster. Reach 10x the readers.

Our Mini book Additional Book Package is designed for AAE authors who have already published their first book with AAE and are familiar with our publication process.

We've found that some authors who are not finished with their signature AAE book want to move forward with publishing another manuscript (for example, a new edition of a previously self-published book). If you wish to publish a mini book before completing your main AAE book, please bear in mind that you must have access to the Igniter Track before purchasing this Minibook Package. If you do not have access to the Igniter Track, you won't have the tools you need to follow our publication process. To find out more about Igniter Track access, please contact support@ignitingsouls.com.

Here is what we offer our AAE authors for mini books as additional books with AAE:

1. A proven framework Google Sheet Template
2. Mini-Book Manuscript Google Doc Template
3. Back Cover Google Doc Template
